

## Joining Instructions: Revalidation Course in Oil Spill Response Management (IMO II)

### Introduction

The Revalidation Course in Oil Spill Response Management has been designed to update and refresh the skillset of those staff who are identified by member companies as functional leads in oil spill response incident management teams.

The course serves as a 'refresher' for those whom have already attended a certified, IMO Level Two training course.

<b>Audience</b>	Those whom have already attended a certified, IMO Level Two training course, and wish to update their skill sets and knowledge, and to extend the life of their original certification.
<b>Pre-requisites</b>	Participations <u>must</u> have previously attended a certified IMO Level Two or Level Three course in the previous three years (<39 months).
<b>Aim</b>	To provide participants with the opportunity to refresh skills previously learnt and update their knowledge on latest trends and developments.
<b>Objectives</b>	<p>At the end of this course, participants will have:</p> <ul style="list-style-type: none"> <li>- revisited the learning objectives of the initial course,</li> <li>- spent time exploring and considering new developments in oil spill response; and</li> <li>- undertaken a number of 'verification', desktop exercises.</li> </ul>
<b>Course Content</b>	<p>During the course the following subject will be reviewed or covered:</p> <ul style="list-style-type: none"> <li>• Overview of spill response which includes Australian response arrangements and ICS overview.</li> <li>• Oil spill response initial actions including oil spill assessment, characteristics of spilt oil, oil spills &amp; the environment.</li> <li>• Oil spill response techniques which includes monitor and evaluate, dispersants, protection and deflection, containment and recovery, shoreline clean-up, response alternatives, ending an oil spill response.</li> <li>• Oil spill response critical areas which includes oiled wildlife response, waste management, media and communications, liabilities claims and compensation, developing and incident action plan, health and safety.</li> <li>• Clarifying roles and responsibilities which is conducted through a tabletop exercise, exercise verify scenarios and equipment deployment.</li> </ul>

	<ul style="list-style-type: none"> <li>Review of new/revised spill response techniques and methods arising from the OGP-Joint Industry Project and other groups and organisations.</li> </ul>
<b>Pre Course Work</b>	<p>A link to your pre course work will have been sent in your email booking confirmation. Please ensure 2 weeks out from your course that you have the current version of the pre-reading which can be found on our <a href="#">website</a>.</p> <p><b>Please ensure you complete this task and bring it to the course as it forms part of your assessment.</b></p>
<b>Assessment</b>	<p>This course is part of AMSOC's suite of <u>competency based training</u>.</p> <p>As such, participants will be assessed during the course, and need to demonstrate their competence against the course objectives to receive certification.</p>
