COURSE IN INTRODUCTION TO OILED WILDLIFE RESPONSE

**Balanced approach
between theory and
desktop exercises.**

**Competency Based
Training with
exposure to industry
technical specialists.**

Course Dates:

**July 3
(Fremantle)**

Course Fees:

\$750.00 (incl GST)

Designed for **industry and agency personnel and wildlife specialists involved in preparing for and responding to wildlife activities during an oil spill response in Australia**. This introduction to Oiled Wildlife Response course forms a pre-requisite for the Oiled Wildlife Response Management and Field Courses.

The training will be classroom based with trainer led sessions, interactive group components and case studies. Training Sessions include:

- Overview of oil types and effects of oil on wildlife
- Health and safety
- Introduction to oil spill wildlife response preparedness
- Wildlife in Australia susceptible to oiling and pertinent to oiled wildlife response
- Overview of oil spill wildlife response in Australia

This course is not accredited although assessment components will be used during the course to assess the competency of participants.

For more information or to discuss customised training options, contact Lee Mould, AMOSC Senior Technical Officer | Oiled Wildlife
