

Joining Instructions: Course in Oil Spill Response Operations (IMO1 Equivalent) - 2021

Introduction

The Course in Oil Spill Response Operations has been designed to meet the needs of member companies who have identified practical oil spill response such as on water or shoreline operations as part of their workforce requirements.

<p>Audience</p>	<p>This course is designed for people involved in the practical aspects of oil spill response. It is suitable for people with a hands on role at oil facilities and marine terminals, personnel from government and industry.</p> <p>For responders, aspiring core group members and potential on-site team leaders.</p>
<p>Aim</p>	<p>To train and qualify personnel for employment as oil spill operators.</p>
<p>Objectives</p>	<p>At the end of this course, participants should be able to:</p> <ol style="list-style-type: none"> 1. Work within relevant legislation and guiding frameworks including OHS, the intergovernmental agreement and relevant contingency plans. 2. Identify characteristics of and assess oil spills, implement appropriate initial actions and identify and make appropriate notifications. 3. Implement appropriate initial actions and identify and make appropriate notifications in the case of an oil spill. 4. Apply knowledge of a set range of oil spill response strategies to identify appropriate response. 5. Apply knowledge to identify appropriate oil spill response equipment. 6. Apply knowledge to identify appropriate oil spill response equipment. 7. Record, communicate and distribute oil incident response information within the structured environment of an incident control centre. 8. Identify, inspect, prepare and operate oil spill response equipment. 9. Deploy equipment as outlined in the incident action plan. 10. Ensure equipment is operational and stored ready for emergency use. 11. Liaise with incident control centre to assess and plan layout of an oil spill response incident site including staging areas, temporary storage and removal of on-site oil spill waste.

	12. Ensure outcomes identified in an incident action plan are met by the work team.
