

## Joining Instructions: Introduction to Oiled Wildlife Response

### Introduction

The Introduction to Oiled Wildlife Response has been designed to meet the needs of member companies who have identified staff as participants in an oiled wildlife response.

The course provides a practical and theoretical grounding in the fundamentals of an oiled wildlife response.

<b>Audience</b>	Industry personnel, subject matter experts and government personnel who may be required to fulfil roles within an oiled wildlife response team.
<b>Aim</b>	To provide individuals with an understanding of the fundamental knowledge of oiled wildlife response in Australia and enable them to assist in an OWR team.
<b>Objectives</b>	<p>At the end of this course, participants should be able to understand:</p> <ul style="list-style-type: none"> <li>• The importance of the OWR as a component of the larger OSR.</li> <li>• Types of oil, basic properties and evolution of oil in the water and the potential impacts on different wildlife groups.</li> <li>• Basics of the potential impacts and effects of different hydrocarbons on both wildlife and the environments in which they live</li> <li>• Basics of the potential risks for an impact to wildlife from an oil spill incident and the general Australian and industry specific wildlife response arrangements</li> <li>• Diversity of wildlife that may be impacted by an oil spill incident and the information available in the regional plans to support a response</li> <li>• The identified stages of an oiled wildlife response and requirements for each including</li> </ul>
<b>Course Content</b>	<p>During the course the following modules will be covered:</p> <ul style="list-style-type: none"> <li>• What is Oiled Wildlife Response</li> <li>• Oil and Impacts on Wildlife</li> <li>• Health and Safety in an OWR</li> <li>• OWR Preparedness in Australia</li> <li>• Wildlife in Australia Pertinent to Oiled Wildlife Response Preparedness</li> <li>• An Overview of the Oiled Wildlife Response Process in Australia</li> </ul>
<b>Pre-Course Work</b>	<p>There is no required pre-course reading however you may wish to review the contents of:</p> <ul style="list-style-type: none"> <li>• The WA State Oiled Wildlife Response Plan <a href="https://www.dpaw.wa.gov.au/images/documents/conservation-management/marine/wildlife/West_Australian_Oiled_Wildlife_Response_Plan_V1_1.pdf">https://www.dpaw.wa.gov.au/images/documents/conservation-management/marine/wildlife/West_Australian_Oiled_Wildlife_Response_Plan_V1_1.pdf</a></li> <li>• The Pilbara Regional Oiled Wildlife Response Plan <a href="https://www.dpaw.wa.gov.au/images/documents/conservation-management/marine/wildlife/PROWRP_20141103.pdf">https://www.dpaw.wa.gov.au/images/documents/conservation-management/marine/wildlife/PROWRP_20141103.pdf</a></li> </ul>
<b>Assessment</b>	All AMOSC accredited courses are competency-based training and include assessment to determine a participant's competence against the selected course learning objectives.
