COURSE IN INTRODUCTION TO OILED WILDLIFE RESPONSE

**Balanced approach
between theory and
desktop exercises.**

**Competency Based
Training with
exposure to industry
technical specialists.**

2022 Course Dates:

**May 23
(FREMANTLE)**

**September 19
(FREMANTLE)**

Course Fees:

\$800.00 (incl GST)

Designed for **industry and agency personnel and wildlife specialists involved in preparing for and responding to wildlife activities during an oil spill response in Australia**. This introduction to Oiled Wildlife Response course provides a broad understanding of the concepts further developed in the Oiled Wildlife Response Management and Field Courses.

The training will be classroom based with trainer led sessions, interactive group components and case studies. Training Sessions include:

- Overview of oil types and effects of oil on wildlife
- Health and safety
- Introduction to oil spill wildlife response preparedness
- Wildlife in Australia susceptible to oiling and pertinent to oiled wildlife response
- Overview of oil spill wildlife response in Australia

This course is not accredited although assessment components will be used during the course to assess the competency of participants.
