This Course:

Provides participants with the knowledge and skills required to be appointed as an Incident Controller and to lead an Incident Management Team effectively.

It is designed for **industry personnel appointed by their organisation to act as Incident Controller** in an Incident Management Team (IMT) for a marine oil spill response.

Offers practical and theoretical opportunities to develop skills and knowledge in the following:

- Fundamentals of oil spill response,
- The leadership of an oil spill management team,
- Roles and responsibilities of Incident Management Team Functions - (Incident Controller, Planning, Operations, Logistics, Finance & Administration),
- Identification of response objectives, appropriate response strategies and alternative response options,
- Decision-making and communication, and
- Relevant legislation, frameworks, intergovernmental agreements and Oil Pollution Emergency Plans.
