

## Joining Instructions: Course in Oil Spill Response Operations (IMO1 Equivalent) - 2024

### Introduction

Welcome to the Course in Oil Spills Response Management (IMO I equivalent) being held in Geelong.

The Course in Oil Spill Response Operations has been designed to meet the needs of member companies who have identified practical oil spill response, such as on-water or shoreline operations as part of their workforce requirements.

<p><b>Audience</b></p>	<p>This course is designed for people involved in the practical aspects of oil spill response. It is suitable for people with a hands-on role at oil facilities and marine terminals, personnel from government and industry.</p> <p>For responders, aspiring core group members and potential on-site team leaders.</p>
<p><b>Aim</b></p>	<p>To train and qualify personnel for employment as oil spill operators.</p>
<p><b>Objectives</b></p>	<p>At the end of this course, participants should be able to:</p> <ol style="list-style-type: none"> <li>1. Work within relevant legislation and guiding frameworks including OHS, the intergovernmental agreement and relevant contingency plans.</li> <li>2. Identify characteristics of and assess oil spills, implement appropriate initial actions and identify and make appropriate notifications.</li> <li>3. Implement appropriate initial actions and identify and make appropriate notifications in the case of an oil spill.</li> <li>4. Apply knowledge of a range of oil spill response strategies to identify appropriate responses.</li> <li>5. Apply knowledge to identify appropriate oil spill response equipment.</li> <li>6. Record, communicate and distribute oil incident response information within the structured environment of an incident control centre.</li> <li>7. Identify, inspect, prepare and operate oil spill response equipment.</li> <li>8. Deploy equipment as outlined in the Incident Action Plan.</li> <li>9. Ensure equipment is operational, and stored ready for emergency use.</li> <li>10. Liaise with the incident control centre to assess and plan layout of an oil spill response incident site including staging areas, temporary storage and removal of on-site oil spill waste.</li> <li>11. Ensure outcomes identified in an incident action plan are met by the work team.</li> </ol>
<p><b>Course Content</b></p>	<p>During the course, the following modules will be covered:</p> <ul style="list-style-type: none"> <li>• Australian Response Arrangements</li> <li>• Oil Spill Assessment</li> <li>• Characteristics of Spilt Oil</li> </ul>

	<ul style="list-style-type: none"> <li>• Oil Spills and the Environment</li> <li>• Health and Safety</li> <li>• Monitor and Evaluate</li> <li>• Dispersants</li> <li>• Protection and Deflection</li> <li>• Containment and Recovery</li> <li>• Shoreline Clean-up</li> <li>• Response Alternatives</li> <li>• Waste Management</li> </ul> <p>This will be done through a mixture of lectures and practical exercises throughout the week.</p>
<b>Pre-Reading</b>	<p>With this Joining Instruction, you will also receive a Pre-Reading document containing relevant information about the training that you will be undertaking with AMOSC. These documents will contain links to AMOSC Training Policies and the Pre-reading (page 6) required for the course.</p> <p>Please ensure you complete your pre-reading and your section of the Assessment Agreement (page 5) and bring it with you on the first day of the course.</p>
<b>Assessment</b>	<p>All AMOSC-accredited courses are competency-based training and include assessment to determine a participant's competence against the selected course learning objectives.</p>
