facilitators

First hand exposure
to oil spill response
equipment

Engage in simulated
oil spill response
exercises

Expert Facilitator Led Sessions at AMOSC

This course provides participants with the knowledge and skills needed to contribute to the management and coordination of oil spill response activities.

It is designed for industry personnel involved in an organisation's Incident Management Team (IMT), including personnel with management experience or team working skills at a supervisory level.

The course offers practical and theoretical opportunities to develop skills and knowledge in the following:

- Fundamentals of an oil spill response
- Roles and responsibilities of Incident Management Team functions
- Working within a multi-agency, cross-jurisdictional oil spill team
- Development and implementation of incident action plans
- Utilise Oil Pollution Emergency Plans to identify, analyse and evaluate information to select, locate and coordinate oil spill response strategies, equipment and other resources.

Scenario Simulations (1 day) Face-to-Face at AMOSC

Real-time oil spill response simulations, utilising an Oil Pollution Emergency Plan. IMO 2 Equivalent course participants will work with Incident Controllers (IMO 3 Equivalent course participants) to deliver on objectives and response strategies and develop an Incident Action Plan.
